

Attn: Dear Alumni

Greetings

GITAM Students wish to convey the following lines to you all

We are the members of team BajaGITAM, Which represents GITAM University in Baja Student India 2016. Baja Student India is an intercollegiate motorsport event which involves every participating team to design and fabricate an All Terrain Vehicle. Colleges from all across the nation take part in this event. This year the event will be held on January 22nd at Buddh International Circuit, Greater Noida. We have already fabricated a Go Kart prototype to which runs on Chetak Engine.

The Baja GITAM team comprising of 25 Mechanical and Industrial Engineering students is tasked to analyse, design, build, test, race and market as All Terrain vehicle (ATV). Gitam students qualified in the screening level and secured 22nd Position among 450 teams .

An amount of **FIVE** lakh is required to be incurred by this team to make the prototype for participating in the racing competition to be held in the month of January, 2016.

In this context we request alumni to support this team by providing financial assistance. The cheque may be issued in the name of '**Baja Gitam**' payable at Visakhapatnam.
